Are your kids at risk for cavities?

Head down the right road

Delta Dental studied more than 114 million dental claims and found that kids at higher risk for tooth decay and gum disease are not getting the preventive dental care they need.

2015 Preventive Dental Care Study, Delta Dental Plans Association

1 in 3 kids ages 6-18 are at risk for tooth decay and gum disease.

- 60% have no sealants on 1st molars (ages 6-9)
- 85% have no sealants on 2nd molars (ages 10-14)
- 64% don’t get 2 fluoride treatments per year (under 18)

Cavity Risk Factors

- Cavities in the last 3 years
- Bad brushing habits
- Poor diet
- Family history

Learn more about oral health at mysmileway.com.

Think “2” for Healthy Teeth

- Brush 2 times a day
- Brush for 2 minutes
- 2 dentist visits per year
- 2 fluoride treatments each year
